GUIDANCE

Due to the size and available resources in Seyðisfjörður we are seeking submissions that foreground process over outcome. Proposals that engage with the context of display are encouraged.

NOTES ON FEE STRUCTURE

The fee structure helps us reduce funding risk. Since projects operate under various regional regulatory frameworks, Sluice, which collaborates with projects globally, often finds that these projects are more successful in securing funding than Sluice itself.

We endeavour to keep the fees low because we believe it's important to reduce exclusion due to lack of financial means. If a project can demonstrate it applied for and failed to gain funding – then no fee (beyond the deposit) is sought.

PARTICIPANTS APPLY FOR FUNDING FROM APPROPRIATE FUNDERS FROM THEIR REGION

ABOUT

Sluice Seyðisfjörður – as with every iteration of Sluice expo – is a commitment to your expanded practice as a collaborative endeavour.

Seyðisfjörður is difficult to get to, has limited resources and a tiny population. What it does have is an established and engaged art scene, including Skaftfell, Heima and our expo partners LungA.

LungA School

DEVELOPED BY SLUICE IN PARTNERSHIP WITH LUNGA SCHOOL

Sluice Seyðisfjörður will feature exhibitions, performances, screenings and talks throughout the town. The expo will utilise cultural, municipal, and public sites. Sluice 2025 is an aggregation of artist and curator-led and non-profit organisations and initiatives.
